### MESSAGE FROM RESOLVE: REGISTER FOR NORTHWEST JUSTICE FORUM AT SOU

Resolve and Southern Oregon University are thrilled to announce that the annual Northwest Justice Forum will be held in southern Oregon this year on May 8, 9 and 10. [Registration is now open](#), with the option to attend your choice of events or the whole conference. The deadline to register is Tuesday, April 24 at 5 pm.

Group discounts are also available.

Visit [nwjusticeforum.com](http://nwjusticeforum.com) for more information and to register.

**Why attend?** Join others from around the Pacific Northwest and beyond in an exploration of restorative justice and the remarkable programs and partnerships that are doing groundbreaking, culture changing work. The theme

for this year's conference, "Restorative Justice: Collaborating for a Resilient Community," dovetails with our southern Oregon momentum on Adverse Childhood Experiences (ACEs) and trauma-informed care.

Benefit from inspirational keynote and plenary addresses, networking opportunities, and down-to-the-details workshops that will highlight applications of restorative justice in schools, criminal justice settings, victim services, communities and wider systems.

**Become a Sponsor!** Help keep the NW Justice Forum accessible to a broad audience through your generous support. [Learn more about sponsor benefits](#), which may include recognition, exhibit space and free admission, depending on sponsorship level.

## **YOUR OPINION NEEDED ON THE FUTURE OF HEALTH CARE IN OREGON**

We have three very active Coordinated Care Organizations (CCOs) in our region—AllCare, Jackson Care Connect and Primary Health. They are working to both increase access to health care and to bring resources forward in proactive and effective ways. Much of the progress we've made to become a trauma-informed region has been fueled by our local CCOs. As the Oregon Health Authority looks at next steps for CCOs going forward, they would like to invite you to take a survey on what will become CCO 2.0! Please take a few minutes to do so!

Here is the link: <https://www.surveymonkey.com/r/CCO2-0>

Info from the Oregon Health Authority:

### **What is CCO 2.0?**

Coordinated Care Organizations (CCOs) started in 2012 and were part of Oregon's promise to improve health, provide better health care, and lower health care spending. We now have more than five years of experience with the CCO model and lots of data about what is working and what needs more work over the next five years. We are calling this next phase "CCO 2.0." The CCO 2.0 contract will start in 2020, but we are already laying the groundwork.

### **What type of feedback should I provide?**

We are looking for general feedback on CCOs as well as input on some focus areas. We also welcome you to share any other thoughts or ideas you have for improving CCOs in the future. The sooner we hear your thoughts, the better!

### **How long is the survey open?**

We will collect survey responses from March 15<sup>th</sup> to April 15<sup>th</sup>.

### **Who else can take this survey?**

Anyone is welcome to take the survey! Please share the link widely and with all of your partners.

### **Are there other ways for me/my organization to get involved or provide feedback?**

Yes! During this first phase of policy development (March to June), policy discussions will happen at dozens of public meetings, public forums and Oregon Health Policy Board meetings. If you/your organization would also like to give additional formal feedback prior to June or request a presentation on CCO 2.0, please email us at the address below.

### **Where can I find more information (timelines, meeting information, background, etc.)?**

Please visit the CCO 2.0 website here <http://www.oregon.gov/oha/OHPB/Pages/CCO-2-0.aspx>.
